Smart Home
Upgrade your home with easy control and intelligent automation through a single app

Smart Home Touchscreen Hub

FULLY CONNECTED
Your OnGuard Alarm Smart System powered by Alarm.com aggregates the information from all of your connected devices — including lights, locks, thermostats and sensors — enabling them to work together seamlessly.

LOCATION-BASED GEO-SERVICES
Geo Services gives you added automation that responds based on your location. Home thermostat automatically adjust when you leave for work or get a reminder if you forgot to arm the security system when you drive away from home.

EASY CONTROL
Not just for your smartphone or tablet anymore, you can also use Apple, Amazon and Google devices with your OnGuard Alarm Smart System powered by Alarm.com. With a press of one button or a simple voice command, your home can easily perform any number of custom automations.

Smart Home Ideas

Control fully customizable schedules that work for you or adjust lights and thermostat anytime through a single app so you can always come home to a comfortable environment.

1 Smart Thermostat
Integrating data from all the connected sensors in your home with external weather conditions and even your location can help your system optimize your home climate.

1 Smart Deadbolt Lock
Seamlessly integrate door locks with your system for real-time visibility and control.

- Lock the door automatically when your system is armed.
- Get a text alert when the door is unlocked.
- Assign unique user codes for temporary access.

2 Smart Light Switches
Set schedules to turn lights on and off at specific times or automatically at sunset and sunrise. Make it look like you're home even when you're away.

1 Smart Video Doorbell
Never wonder who is at the door with the Wi-Fi Doorbell Camera. Check your smartphone to see and speak to anyone at the door - even if you're not home.

Also included: 1 Signal Booster, Connection to MyQ Smart Garage Opener

Smart Security Pro

Keep your property safe with 24/7 professional monitoring and emergency response. OnGuard Alarm systems are monitored by licensed central monitoring stations across the country, so you can count on help whenever you need it.

4 Recessed Door Sensors
Clever technology learns your home's unique activity patterns and quickly alerts you of unusual events like the garage door being open too late at night or a door getting opened at odd hours.

4 Recessed Window Sensors
Know if your windows are open or full alert when they shouldn't be.

2 Motion Detectors
Motion detectors that combine passive infrared and microwave detection with pet immunity.

Also included: 1 Enclosure, 1 Power Supply, 1 Transformer
