

The Abbott

Hampton Elevation

Compact without compromise in The Abbott floor plan from Insight Homes

While The Abbott is our smallest home plan, you don't have to sacrifice all of the terrific features Insight Homes is known for just to down-size. You have all of the energy efficiency features, plus all-wood cabinetry and granite in the kitchen, a hardwood foyer, super low-E windows and a host of terrific options to personalize your home to your tastes.

Standard Kitchen

Owner's Suite

Living room, showing optional fireplace and morning room

ABBOTT STANDARD FLOOR PLAN

Additional Living Space Options

Multiple **Morning Room** options provide additional square footage. This is an airy, light room that features tons of windows to guarantee comfortable living year-round.

The **Breakfast Nook** extension adds 81 square feet and includes four additional windows and a sliding glass door to the exterior deck or patio.

Single Story - 1326 Square Feet

ABBOTT PLAN WITH OPTIONS

The Abbott Heritage
Shown with optional garage door

The Abbott Traditional

At right and on the cover is our Hampton elevation. Taking cues from classic beach homes, decorative trim and molding details set this style apart. Above left is the Heritage elevation, showing an optional dormer. Heritage features tapered, Craftsman-inspired columns on the front porch and more prominent decorative trim. Above right is our Traditional elevation, with shutters and round decorative vents. Optional contrasting board and batten trim is shown on the front bedroom.
