The Jackson

The Jackson features 3 bedroom 2 and a half baths with the owner's suite tucked upstairs, drastically expanding the space and open feel for your main floor living areas. Our Jackson offers an exceptionally designed kitchen ideally situated on the rear of the home for easy access when it's time to set down your groceries and boxes. Your living and dining rooms then become one seamless and generously proportioned space in the Jackson for a stunning first impression upon entering your home from the covered front porch. The Jackson also allows interplay with friends and family in the open concept kitchen from all living areas on the main floor.
